«Diary» book

The story is about my imprisonment in a migrant prison, the Sakharov Center for Migrants in Moscow, where I spent six months. In the book I write about my experiences and the stories of the people who were with me.

The book went on sale in March 2018.

In this project I used the Fakestore api. Also during the project I learnt how to use the Tailwind CSS and create context, Router-dom, Fire-base and Firestore. Also added animation with using data AOS
